CAREER OBJECTIVE

Motivated and result-driven **Computer Science and Engineering student** with strong skills in **analytical thinking, problem-solving, data structures, teaching, communication, and leadership**. I aim to build a long-term career in **academia and teaching**, starting with entry-level opportunities and progressively advancing toward academic leadership. With a solid technical foundation and a commitment to excellence, I seek to contribute to the growth of future professionals, enhance the learning experience, and foster a culture of innovation and academic excellence within the institution.

WORK EXPERIENCE

SOFTWARE ENGINEER INTERN

BAIUST COMPUTER CLUB

ENGAGED IN PROJECT-BASED LEARNING WITH PEERS

07/2025 - PRESENT, CUMILLA, BANGLADESH

MENTORS GUIDED COLLABORATION, CONTRIBUTING TO INITIATIVES

EDUCATION

BANGLADESH ARMY INTERNATIONAL UNIVERSITY OF SCIENCE AND TECHNOLOGY (BAIUST)

CUMILLA CANTONMENT

B.Sc. in Computer Science and Engineering (CSE)

HIGHER SECONDARY CERTIFICATE (HSC) | GPA: 5.00

CUMILLA

SECONDARY SCHOOL CERTIFICATE(SSC) | GPA: 5.00

CUMILLA

SKILLS

- Languages & Frameworks: Python, C, C++, Javascript, , HTML5, CSS3, Bootstrap5,TailwindCss, MySQL, React, Nextjs.
- Tools & Platforms: Microsoft Office, Canva, VS Code, Code Blocks, Notebook , MATLAB.
- Concepts: Machine Learning, Database Schema, DSA,OOP
- Soft Skills: Problem Solving, Research, Basic of Robotics, Basic of IOT, Team Collaboration, Project Management, Critical Thinking

PROJECTS

- Solved more than 200 + online problem in different online platform here is all my online side Commutative Programming link (codeforces, codechef, leetcode, hackerrank, Programiz PRO)
- Contact Book Management System (06/2025)
Develop Contact Book In Command Line Interface CLI Using Python. [Github-Link](#)
- Campus Transport Management System (CTMS) (10/2024 - 02/2025)
Develop a secure, efficient system to manage campus transportation for students, staff, and administrators
Using HTML5, CSS3, Javascript,Python(Django Framework), PostgreSql. [Github-Link](#)

- All-in-One University App—Revolutionizing Student Life (03/2025 - 03/2025)
Develop a secure university system
using HTML5, CSS3, Javascript,Python(Django Framework), MySQL [Github-Link](#)
- Campus Event Management System (CEMS) (04/2024 - Present)
Develop Campus Events System with RBAC and QR tickets.
Using HTML5, CSS3, Javascript,Python(Django Framework), Sqlite-database [Github-Link](#)

LEADERSHIP & VOLUNTEERING

- **Assistant Organizing Secretary** , BAIUST Computer Club
- **Webmaster**, IEEE BAIUST Student Branch
- **Executive Member**, BAIUST Robotics Club

ADDITIONAL INFORMATIONS

- **Courses and Certifications: Front-end-Under EDGE Project by Bangladesh**
- **Accomplishment :**
 1. Ongoing coursework in “ **Full Stack Web Development With Python,Django,React**” course from OSTAD.
 2. Completed a comprehensive “**Front-End Development**” training (React / NodeJS) under the prestigious EDGE Project by Bangladesh Computer Council(BCC), ICT Division, in collaboration with the Department of CSE, CUET.
 3. participated in the national event INVENTIOUS 4.1, hosted at MIST as part of Programming Hero's '**NEOFETCH Hackathon**'.
 4. participated in “**BAIUST JUNIOR IUPC**” 2024
 5. Completed 3 days “**Data structure & Algorithm with c++ and Python BOOTCAMP**” successfully.
 6. Completed 2 days offline” **Machine learning and Blockchain technology**” workshop held on 23rd and 24th of July ,2023.
 7. Completed two days workshop on “**IOT & BASIC HOME AUTOMATION**”.
 8. Completed Two Weeks “**Web Development Bootcamp**” associated with BongoDev..
 9. Best Organizers Of A Workshop On “**IOT & BASIC HOME AUTOMATION**”.
 - 10.. Volunteer at “**BAIUST Admission spring 2023**”.
 - 11.Completed full course “**Graphic designing**” at “cumilla IT Institute”.

HR

Potential

Mapo-gu, Seoul

Subject: Application for Frontend Development Intern(React/Next.js).

Dear Sir/ma'am,

I am eager to apply for the Frontend Development Intern (React/Next.js) role at Potential. As a 4th-year Computer Science and Engineering student, I bring hands-on experience with **React, Next.js, JavaScript, and UI/UX design**. Alongside my academic work, I am actively pursuing Full Stack Web Development training, which has strengthened my ability to build fast, scalable, and user-friendly applications. Additionally, I have a solid foundation in **Data Structures & Algorithms (DSA) and Object-Oriented Programming (OOP)**, which allows me to write efficient, modular, and maintainable code.

Potential's mission to become the **fastest development team in the world** resonates deeply with me. I thrive in high-paced environments where rapid problem-solving and innovation are key. With my adaptability, quick learning ability, and passion for delivering impactful solutions, I am confident that I can contribute to accelerating your projects while gaining valuable industry experience under your mentorship.

Thank you for considering my application. I look forward to the opportunity to contribute to Potential's growth and vision.

Sincerely,

Dipa Barua
